# SOURCE

1. Due to special security measures taken north of KARLSHAGEN (N 55/P 92) the PEENEMUENDE (N 55/P 83) airfield could not be approached between 29 August and 1 September 1949. According to a worker employed at the field, 80 to 100 fighters were stationed at the field. A fighter (single-seat monoplane with rounded-off wing tips and retractable landing gear) was observed landing.
2. The number of workers employed at the field was estimated at about 1,500 by workers who were trucked to the field every day. They also stated that they worked on the reconstruction of the administration buildings of the field in three shifts. The field was also cleared. The work was scheduled to be completed on 15 September 1949. The landing field was off limits to the Germans. Power was supplied by a PEENEMUENDE power station.
3. German trucks loaded with furniture and construction equipment were seen on the road from TRASSENHEIDE (N 55/L 02), heading for the field every 20 minutes.

Soviet motor vehicles observed on this road had the following numbers:

25X1B

4. According to several local residents, PEENEMUENDE and KARLSHAGEN were to be evacuated by the civilian population during October 1949. Other local residents stated that the entire island of Usedom was scheduled to be evacuated.

25X1A

Comment:

The occupation of the PEENEMUENDE airfield was reported by agents for the first time. This information is considered credible since the presence of fighter units in PEENEMUENDE
